Furkan Akar

Full Stack Developer

I am a passionate Full Stack Developer specialized in the MERN stack, with experience in various other technologies. I focus on building user-centered applications with clean design and strong attention to detail. My analytical thinking and communication skills help me succeed in both team-based and independent projects. Driven by continuous learning and industry innovations, I complement my professional discipline with a consistent fitness routine, reflecting my resilience and determination.

Work Experience

Full Stack Developer, SmartUp Digital Agency, İstanbul

June 2024 - November 2025

During my tenure as a Full Stack Developer at StartUp Digital Agency, I contributed to the development of modern web and mobile applications. Leveraging technologies like the MERN stack (MongoDB, Express.js, React.js, Node.js), I created user-friendly and scalable applications. My responsibilities encompassed end-to-end solutions, from designing intuitive user interfaces to implementing backend API integrations. I adopted Agile methodologies to enhance team communication and streamline project delivery. Furthermore, I provided effective solutions in performance optimization, code refinement, and debugging, ensuring the successful deployment of projects.

Risk Assessment Specialist, DHLecommerce , İstanbul

September 2022 - Present

Education

Computer Programming, Istanbul University (Associate degree)

September 2023 - Present

Mechanical Engineering, Istanbul Universitesi Cerrahpasa (Bachelor Degree)
